Joseph-Kingsley Chris-Joris Edim

Software Engineer | Backend, Web & Mobile

Lomé, Togo · edimjoseph04@gmail.com · LinkedIn · GitHub

Software engineer with nearly 3 years of experience building web and mobile apps. I enjoy designing backend systems that can handle growth. Fluent in French and English.

WORK EXPERIENCE

Gozem · Software Engineer, full-time · Nov 2025 to present
Develop and maintain REST APIs, migrate legacy features to the modular User backend, resolve production issues, and work with Android and iOS engineers on API design.

Node.js, Fastify, MongoDB

BeWell Corporation · Software Engineer Intern · Jun to Sep 2025
Built full-stack apps with Stripe payments. Worked with management to clarify priorities for the development team.

Next.js, Stripe

Yas Togo · Software Engineer Intern · Nov 2024 to Apr 2025
Built new features, reusable components, and responsive interfaces with the product team.

React.js

HISTECH · Software Engineer Intern · May to Aug 2024
Built a school management app with student and class modules and JWT authentication.

JavaScript, React, Prisma, JWT

Germe Tech · Software Engineer Intern · Jun to Aug 2023
Built a patient tracking platform for registration, doctor assignment, and administrative oversight.

PHP, Laravel

SELECTED PROJECTS

AllFiles.io · File processing platform with server-side conversions, usage quotas, and Stripe subscriptions.

Lokki · Board game bundle rentals with time slot selection and booking via WhatsApp.

Maillot Drip · Football jersey store with product filters, checkout, and order management.

TECHNOLOGIES

Node.js, Fastify, Express, NestJS, MongoDB, PostgreSQL, JavaScript, TypeScript, React, Next.js, Flutter, Dart, Firebase, Git

EDUCATION

Master’s studies in Information Systems · Lomé Business School · Since Nov 2025

Bachelor’s degree in Software Engineering and Information Systems · IAI-Togo · 2024
